

Siriwut Saleephan

Full-Stack Developer / Devops

CONTACT:

0623284172

pool254753@gamil.com

Phayathai, Bangkok

SKILLS:

- **Languages**: C/C++, Python, JavaScript, TypeScript, CSS, SQL, Go
- **Frameworks**: React, Next.js, Express.js, React Native, Expo
- **Runtime & Tools**: Node.js, Bun, Vite, Git/GitHub, Docker, Postman, Apache JMeter
- **Data & AI/ML**: NumPy, Pandas, Machine Learning, Computer Vision, MySQL, MongoDB
- **IoT & Cloud Services:** ESP32, Raspberry Pi, MQTT, Firebase, PostgreSQL

EDUCATION:

SRIPATUM UNIVERSITY
2023 - 2027
aculty of Information Technology, Department of Computer Engineering, AIoT

PROFILE:

Computer engineering student focused on backend development with Go, with full-stack experience in React and Next.js and hands-on IoT work using ESP32 and MQTT. I build systems end to end: from sensors and APIs to databases and dashboards.

PROJECT EXPERIENCE:

SMART FARM

Tech: ESP32, Relay, MQTT, PCB design,Raspberry Pi

- Connected ESP32 sensors to relays so the farm can be switched automatically and from a dashboard.
- Designed the PCB for the controller board.

FACELOCKER

Tech: React, Node.js, MongoDB, face-api.js, MQTT, Docker,Raspberry pi

- Locker that unlocks by face recognition: the web app scans the face and sends the unlock command over MQTT.
- Added PromptPay QR payment for locker use.

KINRAIDEE APPLICATION

Tech: React Native, Expo, TypeScript, Node.js, Express, MongoDB, Google Places API

- Mobile restaurant discovery app that pulls place data from the Google Places API.
- Built a Node.js and Express backend on MongoDB.

EXPERIENCE:

FULL-STACK INTERN | MAY 2026 - JUNE 2026 | WHP GLOBAL SOLUTION SERVICE CO. LTD
